GC ID: 210050a8d0caf5c6cf4268c4ae2ecda3
Asset: portalfatura.gazin.com.br
Port: TCP/443
Score CVSS: 5.3
Operation System: Unknown / nginx/1.19.9
url: <https://portalfatura.gazin.com.br/>
VA status: New
Ambiente: Internet
Last seen: 18/fev/24
Vul. Title: SSL Certificate Is About To Expire
SLA Vencido?: Não
Tipo Ambiente: Aplicação
Negócio: SUICIDE SQUAD

Descrição

One of the TLS/SSL certificates used by your server is about to expire. Once the certificate has expired, most web browsers will present end-users with a security warning, asking them to manually confirm the authenticity of your certificate chain. Software or automated systems may silently refuse to connect to the server. This alert is not necessarily caused by the server (leaf) certificate, but may have been triggered by an intermediate certificate. Please refer to the certificate serial number in the alert details to identify the affected certificate.

Details:

The TLS/SSL certificate (serial: 0b2c80e10d06264919ed94abc85dd3ce) will expire in less than **60** days. The certificate validity period is from **Thu Feb 02 2023 00:00:00 GMT+0000 (UTC)** to **Mon Mar 04 2024 23:59:59 GMT+0000 (UTC)** (26 days left)

Solution:

Contact your Certificate Authority to renew the SSL certificate.

Impact

If an application server detects an expired certificate with a system it is communicating with, the application server may continue processing data as if nothing happened, or the connection may be abruptly terminated.
